Photographs Out of The Past

1—MATHEW B. BRADY EXHIBIT

Throughout the latter half of the nineteenth century, Mathew B. Brady (1822-1896) distinguished himself as an artist and played a leading role in furthering the growth of photography in the United States—both as a medium of communication and as an accredited art of self expression. This Brady collection contains 25 prints, most of which were made from original Brady negatives found in a barn loft at Oswego, New York, in 1949.

This exhibit is loaned to us by ANSCO, whose predecessor, the Edward Anthony Company, was a prime source of supplies used by this great figure in photography during most of his active career.

Brady is most famous as the photographer of the Civil War and of Lincoln.

2—ADAM CLARK VROMAN EXHIBIT

Adam Clark Vroman (1856-1916), proprietor of Vroman's Bookstore in Pasadena at the turn of the century, was in addition a very gifted photographer specializing in the American Southwest. His most impressive work was done between 1895 and 1905 during which time he amassed a collection of some 2400 negatives. Sold by his estate to the Los Angeles County Board of Education, they were filed and then forgotten.

Recently the negatives were discovered and printed. The 30 photographs in this exhibit document an exploratory trip to the top of the "Mesa Encantada," New Mexico, the life and customs of the Hopi and Zuni Indians, the California Missions before restoration and the splendors of Yosemite National Park.

This exhibit is loaned through the courtesy of Eastman House, Rochester, N. Y. These modern prints were made by William Webb from the original negatives.

3—THE PHOTOGRAPHIC SECTION EXHIBIT

The Photographic Section of the Academy of Science and Art, the sponsor of this salon, offers a collection of prints selected from its files and largely indicative of salon photography during the twenties, thirties and early forties. Among the photographers represented in the collection of 60 prints, are such well known personages as Charles K. Archer, Cecil B. Atwater, W. O. Brekon, A. Aubrey Bodine, Byron H. Chatto, Eleanor Parke Custis, J. Ortiz Echague, Frank R. Fraprie, Gottlieb Hampfler, Nicholas Haz, Carl Mansfield, Leonard Misonne, O. E. Romig, P. H. Oelman, D. Ward Pease, Harry K. Shigeta, Arthur M. Underwood, Doris Martha Weber, Pop Whitesell, Jack Wright, and Francis Wu.

Associate Members

Associate members are photographers who have well earned a place on our roll of honor by distinctive merit and consistent excellence of their contributions to the Pittsburgh Salon of Photographic Art. This list now includes all Associate members exhibiting in this Salon and all photographers who have been elected to this honor since 1944, whether living or dead, prefixed by the year of election. The suffix (P) designates merit as a print exhibitor, and (C) as a color slide exhibitor. In 1970 the list will include all Associate Members beginning with 1917.

Simple as the wheel . . .

Dependable as gravity . . .

and now less than \$80!

What made the KODAK CAROUSEL Projector so famous so fast? Its total dependability! Slides are merely dropped into place. Thus, the CAROUSEL Projector is as dependable as gravity itself. And, of course, there's the famous round 80-slide "long-play" tray. And now, Kodak gives you three newly-designed CAROUSEL Projectors to choose from; all slimmer, quieter, and 6 pounds lighter! The CAROUSEL 600 gives you push-button control. The CAROUSEL 700 gives you remote control, forward or reverse. The CAROUSEL 800 has fully automatic slide change plus remote focus, remote forward and reverse. The works! Surprisingly, prices start at less than \$80. See your Kodak dealer!

it's only natural...

naturally sharp for crisp, clear images... naturally fast to give detailed pictures of moving subjects ... and natural in color to capture everything you photograph just the way your eyes see it. Actually, Agfachrome is the only color film available today to give beauty with realism to your color pictures (and, after all, isn't that what you buy a color film for?)

To insure these natural qualities, Agfa insists on processing your film quickly, correctly, in their own laboratories. A service included in the price of purchase.
