THE CREATIVE "AUTOMATIC"

Whatever you need to translate your ideas into expressive photographs, you'll find it in this surprisingly affordable, compact precision slr.

The Nikon FE provides exposure controls from focus-and-shoot automation to fully metered manual settings, including automatic compensation and "Memory Lock." All are backed by true center-weighted metering, with dual silicon diode sensors and Nikon-designed electronics to assure matchless exposure accuracy every time.

You enjoy this reliable performance with any of nearly 70 magnificent Nikkor lenses and countless Nikon accessories. And, all exposure information is constantly before your eye in the bright FE finder.

You can create multiple exposures with a touch of your finger. Interchange finder screens. Take automatic flash shots with

either of two Nikon programming thyristor units (a ready-light is built into the finder). Add the compact Nikon MD-12 motor drive and fire up to 3.5 shots a second. And feel the Nikon precision in everything you do! Try it, at your Nikon dealer. Or write to Nikon Inc., Dept. N-2, Garden City, New York 11530. Subsidiary of Ehrenreich Photo-Optical Industries, Inc.

Kodak gallery

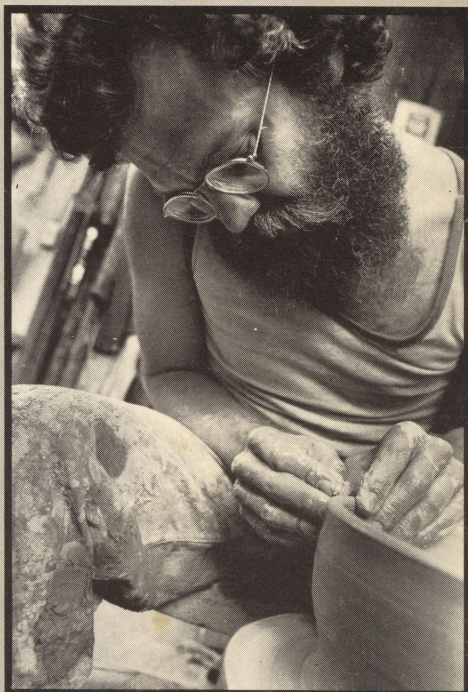

a film guide for advanced photographers

For razor-sharp detail and subtle moods:

* **Kodak Plus-X pan film.** Black-and-white photography has always had its own pure drama and artistry. And this is a film that has helped create it. Offers extremely fine grain, exceptional sharpness, and gives beautiful enlargements. Kodak Plus-X pan film has a speed of ASA 125 with excellent latitude, so it's very forgiving of many exposure errors. An excellent all-round film.

The high-speed favorite of photojournalists:

* **Kodak Tri-X pan film.** Here's the black-and-white film that can capture high-speed action and the drama of low-light situations—with a speed of ASA 400. And it can also handle bright-light situations. Grain and sharpness are good, while latitude is excellent. Try it for indoor sports, nighttime mood scenes, or the beauty of low-light photography.

The more you know about photography, the less you'll want to compromise. For more information on Kodak films, send for a free guide, A10-23B, to: Eastman Kodak Company, Dept. 841, Rochester, NY 14650. Send a self-addressed return envelope without stamp.
